PROFILE

- **Full-stack developer (Typescript, Next.js, NestJS)** with **1+ years** of experience, including a **Software Engineering internship at Agoda** (Booking Holdings) contributing across **web and iOS platforms**.
- Deliver features from **database schema to production deployment** across **freelance start-up and corporate internship experience**.

PROFESSIONAL EXPERIENCE

08/2026

Remote

Famoulee

Software Engineer

02/2026 – 06/2026

Bangkok

Agoda (Booking Holdings) 🔗

Software Engineer Intern

- Part of **agile team of 8 engineers**, participating in **full sprint SDLC** (planning, implementation, releases and retrospectives)
- Shipped user-facing features across **web and iOS platforms** in Korean Region
- Integrated backend data through **API service and BFF layer via GraphQL**, surfacing results on **post-booking and search result interfaces**
- Cleared **50%** of the team's backlog of pending integration/de-integration tasks within the first 2 months

08/2024 – 10/2025

Remote

Famoulee 🔗

Full-Stack Web Developer (Freelance)

- Built frontend using **React and Next.js**, delivering the core UI for an early-stage startup product
- Developed **RESTful APIs** with Node.js and Express.js powering core application features end-to-end
- Designed **PostgreSQL database schema** using Sequelize ORM to support **data models**
- Implemented **subscription billing module with Stripe**, covering checkout, **webhook event processing**, and full **subscription lifecycle** (trial, active, cancellation)

SKILLS

Programming Languages — JavaScript, TypeScript, Java, Python, Swift

Web Development — **Frontend** (React, Redux, Next.js, HTML, CSS, Tailwind), **Backend** (Node.js, Nest.js, Express.js, GraphQL, RESTful APIs)

Mobile Development — React Native, Native iOS (Swift UI, Storyboard)

Database and ORM — RDBMS (PostgreSQL, MySQL), NoSQL (MongoDB), Prisma, Sequelize

Cloud Infrastructure — AWS, Digital Ocean

Tools and DevOps — Git, GitHub, GitLab, GitHub Actions CI/CD, Docker, Testing Frameworks (Jest, Cypress, Playwright), Jira, Stripe

CERTIFICATES

AWS Certified Cloud Practitioner [🔗](#) — May 2025

Huawei Certified Cloud Developer Associate — Nov 2025

PROJECTS

06/2025 – 10/2025

Stepture [🔗](#)

Frontend Developer, Chrome Extension Developer, Project Coordinator

Automated documentation tool that captures and converts web-based workflows into step-by-step guides

- Led 3-person team from design to deployment, achieving Grade A on senior project and successfully launching on **Chrome Web Store**.
- Delivered **90%** of frontend application and chrome extension features.
- Designed and structured Relational Database Schema with PostgreSQL.
- **Tech Stack:** React, Next.js, TypeScript, NestJS, PostgreSQL, Prisma ORM, Chrome Extension APIs, Digital Ocean, Google Drive API, TailwindCSS

Github link - <https://github.com/Stepture> [🔗](#)

01/2025 – 03/2025

AWS Employee Dashboard - Backend Application Development Course [🔗](#)

Project Lead, Full-Stack Developer

- Serverless employee management system using AWS services.
- **Tech Stack:** React.js, AWS Lambda, API Gateway, RDS, ElastiCache, CloudFront - CDN optimization

09/2024 – 11/2024

Recipe Archives - Web Application Development Course [🔗](#)

Project Lead, Full-Stack Developer

Full-stack social recipe sharing platform

- **Tech Stack:** Next.js, MongoDB, NextAuth.js, Cloudinary, Vercel with authentication, image upload, and review system deployed on Vercel

08/2025 – 10/2025

Conserve - iOS Application Development Course [🔗](#)

iOS Application Developer

A native iOS application built with SwiftUI that helps users track and reduce their daily carbon emissions through interactive surveys and progress tracking.

11/2025 – 12/2025

Job Tracker Bot | Telegram Automation Bot

- Developed bot serving users to track job applications with daily reminders and command interface and deployed on Digital Ocean.
- **Tech Stack:** n8n, JavaScript, Telegram API, JSONBin

07/2025 – Present

Life.au Platform [🔗](#)

Wordpress Developer, Project Coordinator

Website under the faculty to showcase senior projects

- Worked as a coordinator for the project, scheduling meetings with 7-members development team and supervisor of the project
- Delivered the Wordpress backend using advanced custom fields
- **Tech Stack:** Next.js, WordPress CMS, Static Site Generation, Advanced Custom Fields (ACF)

01/2024 – 03/2024

Smart and Clean - Database Management System Course [🔗](#)

Full-Stack Developer

- A database-centric application developed as part of a Database Systems Development class.
- Facilitates door-to-door laundry services, enhancing customer convenience, efficient order management, and rider effectiveness.

01/2023 – 03/2023

Instagram Clone - Android Application Development Course [↗](#)

Android Application Developer

Developed a native android application, cloning instagram's Feeds, Stories, Profile features as part of the term project.

EDUCATION

11/2022 – 04/2026

Bangkok

Assumption University of Thailand

Computer Science

Concentration – Software Engineering and Development

CGPA – 3.94 out of 4

AWARDS

The University Council Certificate of Honors

Assumption University of Thailand

For obtaining GPA 4.0 for an academic year -awarded to 11 students out of the entire university.

EXTRACURRICULARS

11/2025 – 01/2026

Bangkok

VMESGrinds [↗](#)

Founder

Founded peer-to-peer learning community facilitating weekly algorithm practice and technical interview prep for 10+ CS students
